

301 - A family game of darts

Equipment

Dart board, darts, pencil and paper

How to play

- The object of the game is to count down from 301 to exactly zero with each player finishing the game with a double.
- In turn, each player throws three darts and deducts the total of the three darts from 301. Encourage mental computation to work out the score.
- To record the score, write 301 on a piece of paper or on the dart blackboard and draw a line down the middle. For each turn, the total of the three darts can be recorded and progressively subtracted from each player's total.
